SCHOOL REPORT.

The School Board submits the following report.

SCHOOL No. 1. The spring term was taught by Miss Della Dustin, a teacher of experience and one who gave general satisfaction. The term proved profitable and pleasant. Miss Lizzie Lang taught the fall and winter terms, giving good satisfaction and gaining not only the good will but respect of pupils and parents. The spring term of the primary department was taught by Miss Margaret Willey, the fall and winter terms by Miss Jean Duncan. Both teachers gave excellent satisfaction and both possess rare merits of qualification as teachers. The Board deeply regrets that Miss Willey has chosen another profession as we shall miss her much in the ranks as a teacher.

SCHOOL No. 2. Spring, fall and winter terms were taught by Miss Ida Drew. This school, taken as a whole, is one where the pupils seem to earnestly and honestly strive to do good work, and Miss Drew endeavored in every way to help and encourage them, working hard to give satisfaction on all sides.

SCHOOL No. 3. Spring term taught by Miss Cora Remick, a teacher of large experience and one much liked. Miss Remick is a teacher that gives her school her whole time, thought and attention and wins the love and respect of pupils and parents. Fall term of this school was opened by Miss Remick, but on account of sickness she was obliged to give it up, therefore the Board secured the services of Miss Ellen Paddleford to finish the term, and also to teach the winter term, which she did, giving most excellent satisfaction to the patrons.

SCHOOL No. 4. School No 4 united with No. 5 for summer and fall but before the winter term was to begin there were many new pupils moving into district No. 4, and for that reason it was deemed advisable to have a school there. The services of Miss Mary H. Moore were secured. Thirteen pupils were registered. She gave excellent service, and parents as well as pupils were pleased. She gave kind and thoughtful attention to all her pupils.

SCHOOL No. 5. Spring and fall terms were taught by Miss Jean P. Moore, whose work in the school room is always well and conscientiously done. She gave the school her best work as usual, and the Board was well satisfied. The winter term was taught by Miss Cora E. Remick, who gave the school her undivided attention as usual. Parents as well as pupils were highly gratified by the advancement of all the children.

SCHOOL No. 6. School No. 6 united with No. 3 for the whole year with general satisfaction and profit.

The interest manifested by parents and citizens in general throughout the town for the public schools is indeed noted with much pleasure by the Board.

As every parent is brought to realize that education commences at the mother's knee, and that every word spoken within hearing of the child tends towards the formation of character, then, and not till then, will true and solid foundations of character be laid. Within the walls of our public schools the destiny of Amerlca is being determined, and from its classes of today must come the legislators, presidents, doctors, ministers, mothers and voters of tomorrow. Then our first duty is to teach this rising generation to perform intelligently their duties as citizens. We must remember that the individual is the unit and the state is the grand sum total, valuable or worthless, according as the units are valuable or worthless. Then the aim of the school

room must be for the true developement of this unit. We are to give our country, minds, trained in independent thought; individuals, who will do and dare; men, "with the individual audacity to think and the moral courage to do."

Let us get a high conception of what the public school really is; let us realize its power and influence; and then let us look upon it as a sacred trust. Let those of us who are in active work in these schools come up to the responsibility of our position, being faithful in the discharge of every duty.

As we look back in the annals of history we find that in the long race of life, boys educated in the country often actually come out ahead of those ground out by the graded machinery of the city schools.. Of course we attribute this largely to the fact that the country boy combines physical training with mental. Nevertheless it is a fact which should stimulate every boy and girl to honest effort with the advantages offered by our school system. It has been said that "As America goes so the world goes." Allow us to add, as the public school goes so America goes. Let us work together that our schools may be an honor to America.

Number of pupils not less than 5 years of age who have attended public schools no less than two weeks, 126. Average daily attendance 110. Number of visits by School Board 35. Number of visits by citizens, 148,

ROLL OF PERFECT ATTENDANCE.

Charles Creaser, Alice Hunt, Mabel Hunt, Henry Warden, Hazel Warden, Frank Creaser, Jean Hosford, Grace Lang, Lillian Lang, Orlean Lang, Philo Lang, Edith Lang, Freeman Lang, Ellen Lang, Agnes A. Hall, Josie Clair, Lucy Paradis, Alex Clair, Napoleon Paradis, Georgianna Hunt, Ruth A. Nelson, Phila Jones, Edith Higgins, Gilbert Lang.

Thirty weeks of school have been maintained during the year just closed. The spring, fall, and winter terms were ten weeks each.
